Take 1 or 2 drops orally, 2 or 3 times per day.

About Organ Energy Meridian Blends

Flower and tree essences are the unique vibrational/electromagnetic pattern of a plant held in water. Since they are non-aromatic, you only smell the herbal/vinegar base in which they are preserved. The vibrational influences of the plants address physical, emotional, mental, and spiritual imbalances beneath the symptoms in a subtle yet powerful way.

Tree Frog Farm's Organ Energy Meridian (OEM) Blends are formulated using principles from the Chinese Five Element understanding of health. Each blend relates to the energy field around a specific organ and its corresponding meridian - channel through which "chi" or life force flows. When the flow is blocked you experience physical, emotional or psychological symptoms. Our OEM Blends are designed to open blockages in the meridian pathways and the field around the organ. This creates an instant shift into energetic balance leading to a greater level of health and vitality.

Use and Care of Essences

Dropper top: put drops directly into your mouth or drinking water.

Mister top: spray directly into your mouth, or into drinking water.

Care: Keep away from direct sunlight, high heat & strong electromagnetic fields. Best used within 2 years of purchase.
